

Clinically Defined “Normal” Donor Validation Panel

(Catalog No. CN-6710)

For Investigational Research Use Only

Application Notes: Investigation of “normal” patient populations for the purpose of defining sensitivity and specificity in age or population “matched” studies is an important element in any test kit research and product development process. Our clinically defined normal patient Panel contains serum specimens from 25 subjects with information collected from **46 physical and demographic** parameters - to include smoking, alcohol history, medications and familial history of cancer and all infectious disease markers. All subjects collected in the United States.

Panel Member	D.O.B.	Sex	Eth	Date of Collection	Temp	Pulse	BP	Height	Weight	Smoking History	Alcohol History	Family History of Cancer	Current Medical Conditions	Current Medications

(All sera tested and found to be nonreactive for HBsAg, HCV, and HIV 1/2)

Questions Listed Above: (Answers in Y=Yes/N=No Format)

1. Have you ever traveled out of the U.S. in the past 3 years or immigrated to the U.S. ?
2. Doctor's care, serious illness, major surgery or hospitalization in the past 12 months?
3. Pregnancy in the last six months?
4. Transfusion of blood or blood products in the last 12 months?
5. Hepatitis, yellow jaundice, or positive hepatitis test?
6. Exposure to hepatitis in the last 12 months, received Hepatitis B Immunoglobulin in the last 12 months?
7. Tattoos, pierced ears, acupuncture, accidental needle stick or skin piercing in the past 12 months?
8. Malaria, Emigrated from another country, or received anti-malarial treatment in the last 3 years?
9. In the past month taken any medications? Ever taken Human Pituitary Growth Hormone? Ever taken Accutane for acne? Taken Tegison for treatment of psoriasis?
10. Self injection of drugs?
11. Heart disease, high blood pressure, chest pain, or shortness of breath?
12. Lung disease, chronic cough, emphysema, or tuberculosis?
13. Blood disease, bleeding abnormalities, or hemophilia?
14. Tumor or cancer other than minor skin cancer?
15. Convulsions, seizures, fainting spells, or epilepsy?
16. Kidney or liver disease, ulcers, or diabetes requiring insulin?
17. Vaccinations, immunizations, or shots in the last 12 months?
18. Active allergy, cold, or infection, contact with contagious disease?
19. Syphilis, Gonorrhea, (clap) or treatment in the last 12 months?
20. Had unexplained night sweats, fever or weight loss? Lumps in neck, armpits or groin. Discolored areas of skin or mouth. Persistent cough or diarrhea?
21. Pink or purple blotches anywhere on skin or mucous membranes?
22. White spots or blemishes in the mouth?
23. If male, have you participated in sex act with another male since 1977 even one time or been the heterosexual partner of a prostitute in the last 12 months?
24. Engaged in sex for drugs or money since 1977?
25. Sex partner of any of above (High Risk Group)?
26. Have you ever had sex with anyone who has had AIDS or has had a positive test for the AIDS virus in the last 12 months?
27. Female donors, have you had sex with a man who had sex, even one time since 1977, with another man in the last 12 months?
28. Have you ever taken illegal drugs with a needle, even one time or had sex with anyone who has in the last 12 months?
29. Have you taken clotting factor concentrates for a bleeding disorder such as hemophilia or had sex with anyone who has in the past 12 months?
